Acute Care Medicine Course & ENLS Course

Nov.16-17, 2016 | New Delhi

www.apcc-india.com
Dear Colleagues,

It is my pleasure to invite you to participate in the APCC flagship event, APCC-2016 to be held in the Capital City of India, New Delhi - the premier event in the specialty of Critical Care Medicine in ASIA.

This congress is an immersive experience that goes beyond what typical medical conferences offer. APCC 2016 is the place to gain the knowledge and tools that you can immediate put to practice.

APCC is committed to delivering the highest quality education and best practice of the critical care and acute care physicians.

This year congress will help critical care physicians move one step further in their career. The scientific programme will offer the great opportunities to discover the latest scientific advances and a unique opportunities for the audience to interact with the distinguished speakers and profit from their deep knowledge and expertise in difficult aspects of the current practice.

Pre - conference Acute Care Medicine Course is designed for fellows in training to upgrade their internal medicine skills which is strength of the critical care physician.

Don’t miss out on this one of - a-kind experience that will reinvigorate your career, reignite your passion for Critical Care medicine, and remind you of all the reasons you become an Intensivist in the first place.

A top-ranked faculty of invited speakers, who are all well-known international experts in their field, will participate by presenting and chairing sessions.

We hope your experience here in APCC-2016, New Delhi exceeds your expectations and you leave re-energized in your commitment to provide the highest quality of care for critically ill patients.

As chair of organizing committee, I would like to send you my warmest regards and invite you to a stimulating scientific event.

The chair of the congress
Dr Omender Singh
APCC -2016
Great Debates on Critical Care Medicine

Organising Committee

Patron
Dr Ram Rajgopalan
Dr. Farhad Kapadia

Acute Care Medicine
Course Coordinator
Dr Desh Deepak
Dr Akhilesh Singh

Treasurer
Dr Bhupesh Uniyal
Dr. Manish Gupta
Dr. Shantanu Belwal

Chair - Scientific Committee
Dr Deven Juneja
Dr Prashant Nasa

Organizing Secretary
Dr Mohit Mathur

Executive Members
Dr Bharat B Mishra
Dr Chetan Kumar Gupta
Dr Desh Deepak
Dr Rajat Gupta
Dr Vikas Arora

International Faculty - Invited

Pr Alain Combes
MD, PhD
Intensive Care Medicine
University of Paris
Paris

Dr John Laffey
MB, Bch, BAO, MD, MA, FFARCSI
Professor of Anaesthesia,
National University of Ireland
Ireland

Dr Timothy B Erickson
MD, FACEP, FACMT, FAACT
Prof of Emergency Medicine
Director, Center for Global Health
Associate Dean for Faculty Affairs
University of Illinois, Chicago, USA

Dr Suveer Singh
FRCP, EDIC, DICM, FFICM
Consultant Physician - Critical Care and Respiratory Medicine
Chelsea & Westminster Hospital,
London, United Kingdom

Dr Neeraj Badjatia
MD MS
Director, Neurosurgery Critical Care Unit
University of Maryland, USA
Acute Care Medicine Course is developed by APCC specifically for Critical Care Physicians, Intensivists, Anaesthesiologists, Physicians, Internist, Critical Care Fellows, Pulmonologist and other Physicians practicing Acute Care Medicine. The course, also is suitable for physicians planning to take Fellowship/DNB/FNB examinations.

Seasoned and enthusiastic faculty will share their experience in managing Acute Medical Emergencies. The faculty combine with the unique case and literature based content interactive will truly make the course an exceptional learning experience. The faculty will discuss new techniques and procedures in the area of acute care medicine.

2 Day Live Course

• Lectures given by global expert faculty who will review the core material
• Two Board Review Q&A Sessions
• Photo Q&A Sessions
• Audience response system for the majority of the questions

About the Course

About the Course

Who Should Attend

- Critical Care Fellows
- Anaesthesiologists
- Emergency Physicians
- Residents
- Nurses
- Other Healthcare Providers Engaged in the practice of Acute Care Medicine

Post-Course Materials (CD-Based)

CD-Based video presentations will be send to all the delegates in about a month after the course.
Acute Care Medicine Course

A Focused, Evidence-Based Course Designed to Significantly Advance Your Practice of Acute Care Medicine.

Homeostasis
- What constitutes a sick patient? : The First 30 Minutes of Management - Cutting EDGE Resuscitation Beyond the Qutub
- Respiratory and Cardiovascular Basics
- Oxygen Therapy : Guidelines & New Tools
- Shock - Resuscitation, Fluids, Vasopressors, Monitoring
- Labs, lytes and ABG : Deadly Electrolyte Emergencies
- Cutting Edge Technology to save the Crashing Patients

Neurology
- An Approach to Altered Mental Status
- Status epilepticus - Refractory and Super Refractory
- Meningitis - Community and Hospital aquired & Encephalitis
- Acute Stroke - Ischaemic : Are you ready to give TPA? Practical Consideration for Real Life
- Acute Stroke - haemorrhagic & SAH
- Acute Neuromuscular Weakness
- Life Threatening Weakness

Cardiovascular
- Basic ECG Expert Interpretation
- Acute coronary syndromes
- Acute heart failure, Arrhythmias - Tachy & Brady including refractory
- Cardiogenic shock, IABP & assist devices
- Acute Decompensated Heart Failure

Nephrology
- Oliguria & A K I
- RRT and Extracorporeal Therapy : Basic Understanding
- Hypercalcemia Crisis
- Acute Pyelonephritis
- Acute Transplant Rejection

Contd...
Acute Care Medicine Course

A Focused, Evidence-Based Course Designed to Significantly Advance Your Practice of Acute Care Medicine.

**Respiratory**
- Dyspnoea, Acute asthma & COPD, Pneumothorax
- Ventilatory Crisis - Troubleshooting
- Refractory Hypoxemia - Approach, MV
- Chest Imaging in Acute Care medicine
- CAP & VAP
- Acute Pulmonary Embolism: Diagnostic and Therapeutic Dilemma

**Gastroenterology**
- Acute Abdomen GI Haemorrhage
- Acute & Chronic Liver failure with Encephalopathy
- Acute Pancreatitis

**Miscellaneous**
- Acute Vasculitis: Acute SLE, Pulmonary Syndrome
- Haematological Challenges in Acute Care Medicine
- Haematology Emergencies
- Infectious Disease Emergencies: Approach to Fever with Rash with MODS
- Oncology Emergencies
- Antibiotic basics for Acute Care Physicians
- Imaging in Acute Care Medicine
- Endocrine Emergencies: Gland Got Mad.
- An Approach to Critically Ill Poisoned Patient: Toxicodrome
- Antidotes in Toxicology
- Dermatologic Emergencies: The Death Rash

**RAPID FIRE Q & A**

Ensuring highest quality education & you stay ahead of the latest development in the field of Critical Care Medicine.
Shock & Resuscitation
- Ideal Fluid & Fluid Challenge – Disease Specific: SEPSIS, ARDS, CLD, Brain Injury....
- Goals and End Points - Tissue oxygenation: what do I choose?
- Monitoring Tools : CVP, PA, ECHO, Ultrasound, SVV, ScVO2 ……..
- Vasopressor Choice – Vanish ..........
- EGDT, ProCESS, ARISE , proMISE, TRIPS & other Trials
- Therapeutic Target
- Recommendation and Practice in India

Acute Respiratory Failure: ARDS to Weaning
- Mechanical Ventilation
- CO2 Removal: Respiratory Dialysis
- NAVA
- ECMO
- Predicting Failure of NIV in Decompensated
- COPD Patients

Acute Brain Injury
- Adjuvant Therapies in Brain Injury: Sodium, Water, Temperature, Infection ....
- Acute Stroke: tpa and beyond
- How do I monitor & treat ICP & CPP
- Mechanical Ventilation in Neuro Critical Care
- Super Refractory Status Epilepticus

Infectious Disease
- MDR Infections: New Drugs, PK/PD, Ideal Combinations
- Infections in Immunocompromised
- Tropical Infections…….
- Fungus: Candida to Mucormycosis

Cardiology
- ACS Guidelines 2015: What has changed.
- VA ECMO Alone or ECMO + IABP in CS AMI patients
- Role of Other Assist device - L VAD....
- Aortic Dissection: Are you missing this Diagnosis

Critical Bleeding
- Approach & Goals
- Management of VK & NOAC
- associated bleeding: New Antidotes

Hematology & Oncology
- Acute Hematology & Oncology Emergencies
- Infections: What is different?
- Infection Control and Anti-infectives
- Critical Bleed: New Technology New Drugs
- Reversing Old and New Anticoagulants
APCC -2016

Great Debates on Critical Care Medicine
Venue- Hotel Leela Palace, Chanakya Puri, New Delhi

Agenda

Toxicology
- New Street and Club drugs
- New Overdose , New Antidotes ,
- Charcoal Hemoperfusion  and ECMO
- Small Overdose : Big Problems
- Toxicology Lab

Nephro Critical Care
- AKI : New Definitions , RRT
- Transplant Infections

SEPSIS
- Antibiotic ABYSS
- Infection Control in the Era of MDR Infections
- Management of PDR infections
- Handling the Outbreak in ICU
- Adjuvant Therapies : U Trip, Immunoglobins, Filters ……

Extra Corporeal Therapies in Critical Care
- Cytokine Filtration
- RAS
- Plasma Exchange
- V V - ECMO in Severe ARDS
- Managing Hypoxemia during V V - ECMO
- ECCO2R in Hypercapnic Patients with NIV Failure
- AKI in Patients on ECMO
- The SAVE Score  to predict survival in VA - ECMO Patients
- Managing SEPSIS in Patients on ECMO :
- Antibiotics PK/PD , Monitoring and Targets
- ECMO in Toxicology

Miscellaneous
- Acute Liver Failure, pancreatitis and
- Fulminant Hepatic Failure : New Therapeutic Options
- Pregnancy Critical Illness
- Imaging in Critical Care
- 10 Must read articles : Review by EXPERTS
- Improving the Patient Experience in ICU

Replacing What’s Required
- fast and effective onset of action with high tolerability

- Fast onset of action - within 10 minutes
- Highly effective
- High tolerability
ICU Director’s Symposium

- Job Description of The Director & Team
- Administrative Skills
- Clinical Skills
- What Constitutes Good Leadership
- Understanding the finances and EBITA of Critical Care
- How to Run a Fellowship Programme
- Closed v/s Open ICUs
- ICU Research and Training
- Ensuring Quality in Critical Care
- Ensuring Quality on Nursing and Supportive Care
- Ensuring Job Satisfaction of Critical Care Physicians
- Managing Stress & Burnout
- Handling a Difficult Family Member of a Patient
- Handling the Conflicts in the Department
- Handling the Medico Legal Issues
- Sharing the Experiences : Lessons My Patients Have taught Me & What I Learned at the Bedside
- Overcoming the Gender Trap : Leadership Lessons for Men & Women

Exam-Focused Structured Courses to Connect You With Essential Resources in the field of Critical Care & Emergency Medicine.

Prepare for board certification examinations with our comprehensive review materials. World-renowned clinicians have developed exam-focused review courses and self-study materials to offer relevant resources for review. Whether you need to certify, recertify, or simply review, APCC Board Review offers a board study plan you can put to the test with confidence.

Test your recall, interpretation, and problem-solving skills with cases, multiple-choice questions and answers, and rationales to test your knowledge.

Register your interest for following Courses

> FCCS Provider and Instructor Course
> Critical Care Toxicology
> Acute Care Medicine
> Infectious Disease Board Review Course
> Haemato-Oncology Critical Care Course
> Cardiac Critical Care Medicine
> Critical Care Nursing
> Fluid and Electrolytes workshop
> Rapid Response Team Workshop
> Basic & Advanced - Acute Neurology Life Support Course
> Basic & Advanced - Obstetrics Life Support Course
